## WORK EXPERIENCE

### Test Solutions Engineer Hotovo, Protecht (contract)

11/2022 - Present

Košice (SK), Sydney (AU)

#### Description

- risk management web (and mobile) application for large companies
- focusing on REST API test automation with Robot Framework
- development of testing tools (NodeJS, NextJS)

### Test Automation Engineer Hotovo, Dentons (contract)

03/2025 - 04/2025

Košice (SK)

#### Description

- full-stack testing experience of custom AI agent for company from legal space
- rapid development driven by AI IDE, startup like short-term project
- I learned a LOT

### Test Automation Engineer FPT Slovakia, Compleo (full-time)

08/2018 - 11/2022

Košice (SK), Dortmund (DE)

#### Description

- e-mobility B2B management tool (microservice-based architecture connected to Angular web application + mobile app)
- **1/3 of time on project** -> E2E testing with UFT (GUI module), developing test automation framework (in pure tester team) - covering all layers (frontend, DB, SAP, REST/SOAP)
- **2/3** -> member of multiple agile teams - functional testing of microservices with UFT (API module) - heavy focus on REST/SOAP interfaces and messaging tests (RabbitMQ); also doing cross team integration testing, supporting E2E testers
- **3/3** -> same thing as previous point + heavy participation on migrating whole TA on project to Cypress (developing PoC and core functionalities, knowledge sharing, supporting all backend testers on project)

### Retail Pharmacist BENU SK (full-time)

07/2016 - 08/2018

Eastern and Middle Slovakia

#### Description

- part of "flying pharmacists team"
- ensuring flexible replacing of missing pharmacists in chain (in case of vacations and other work incapacities)
