## WORK EXPERIENCE

### QA Engineer

Hotovo

11/2022 - Present Košice (SK), Sydney (AU)

Outsourced for Protecht

Description

- full stack testing of complex risk management application
- focusing on API test automation (Robot Framework) and development of testing tools (NodeJS, NextJS)

### QA Engineer

FPT Slovakia

08/2018 - 11/2022 Košice (SK), Dortmund (DE)

Outsourced for Comleo

Description

- e-mobility B2B management tool (microservice-based architecture connected to Angular web application + mobile app)
- **1 year 4 months** -> E2E testing with UFT (GUI module), developing test automation framework (in pure tester team) - covering all layers (frontend, DB, SAP, REST/SOAP)
- **1 year 8 months** -> member of multiple agile teams - functional testing of microservices with UFT (API module) - heavy focus on REST/SOAP interfaces and messaging tests (RabbitMQ); also doing cross team integration testing, supporting E2E testers
- **to present** -> same thing as previous point + heavy participation on migrating whole TA on project to Cypress (developing PoC and core functionalities, knowledge sharing, supporting all backend testers on project)
- daily communication in English with colleagues, every 3 months attending business trips in Dortmund (before pandemic)

### Flying Pharmacist

BENU SK

07/2016 - 08/2018 Eastern and Middle Slovakia

Description

- part of "flying pharmacists team"
- ensuring flexible replacing of missing pharmacists in chain (in case of vacations and other work incapacities)
